

Potters Bar Hospital (PBCH) Services - Patient Views

Potters Bar Community Hospital has in the past provided a number of outpatient services but many of these – particularly outpatient diagnostic services - were withdrawn as a result of the Covid Pandemic. The future of these services at PBCH is in discussion, with your local GPs and the Patient Participation Groups of the three Potters Bar GP Practices pushing for the resumption and expansion of the range of diagnostic services that can be provided. You can help us by completing the questionnaire below.

Questionnaire

1. Have you or your family or friends used any of the outpatient diagnostic services listed below in the past 5 years? If so where did you go for the tests (*including PBCH*), how did you get there.

Test	Number of occasions?	Which Hospital or other NHS site?	How did you get there?	Would it have been easier to attend if this was at PBCH
X-ray				
Ultrasound				
Echo-cardiogram				
CT Scan				
Blood Test				

2. How convenient is it for you to get to Potters Bar Community Hospital, how would you get there?

Getting There	Easy		Difficult	
Please tick-→				
Travel	Car	Taxi	Bus	Walk
Please tick-→				

3. Do you have concerns about getting to outpatient services at other hospitals on a regular basis and if so, please indicate which hospital and why?

Hospital	How would you get there?	Your Concerns
Barnet		
Chase Farm		
Finchley		
QE2/WGC		
Lister/Stevenage		
St Albans		
Watford		

4. Any other views or comments?

Please email back to FriendsOfParkfieldPPG@gmail.com or drop off your completed questionnaire at the surgery.
